"What are you talking about Dr. C?"

I'm talking about a way for high-quality dental care to be within reach without excessive cost.

Are you frustrated with your insurance company because they put limits on procedures covered, what doctors you can see, and how much they will pay towards your treatment?

Are you interested in a different dental healthcare solution with all basic treatment, such as yearly cleanings, x-rays, and examinations all covered for a low monthly payment?

How about 50% off for any Major dental treatment needs, such as crowns, deep cleanings, implant restorations, partials and dentures, to name a few?

What if I told you that **FLAT RATES** on **ALL** dental work would be given? This includes:

- fillings, no matter the tooth, materials used to fill it, or its location in the mouth
- extractions, no matter the tooth or how complicated it is to remove (within scope of practice)
- crowns, with the core buildup included (small surcharge added for gold)

What if I told you that as an All People Dental Co-op participant that you can finance all major dental treatment for up to 3 months *with no interest*?

What if I told you that there is NO LIMIT or 'yearly maximum' on what dental treatment you could have?

What if I also said there is no annual deductible for you to satisfy prior to receiving dental treatment?

Sounds great, right? It is.

With the All People Dental Co-op, you will get the same discounted rate for everything on your plan, no matter how large or small your treatment needs.

What if I told you that you would have direct access to Dr. C for remote consultations, questions, and referrals?

Would this interest you?

Now you may wonder how Dr. C and All People Dentistry can do this.

First, let me say, there will never, **EVER** be any shortcuts or corners cut during the treatment of patients! The same high quality materials and technology are used for each patient's individual case.

The same amount of time is invested in each individual for each procedure. We are able to do this by REDUCING the cost that we charge for LABOR.

We do this so that we can extend discounts to patients in our dental cooperative. This allows more people access to dental care and enables them to complete more dental work for their hard earned dollars.

Prices will be locked in through each year and are subject to change only as the cost of materials and lab fees change.

If you are still reading, and I hope you are, here are the fees for basic coverage, and some examples of Major treatment, as a frame of reference.

Remember, discounted and flat rates ALWAYS on Major treatment!

BASIC- 12 month membership

\$35 individual per month
\$65 couple per month
\$100 family per month

Includes:

2 examinations
2 cleanings

any and all x-rays, emergency exams, and referrals

MAJOR examples:

ALL fillings \$182 per tooth
ALL extractions \$193 per tooth
Deep Cleaning \$165 per quadrant
Any crown with buildup \$850
Dentures \$935 per arch

My goal is to offer an alternative to big insurance company domination of our healthcare industry. Also, I want to provide excellent dental care to the individual at a reasonable cost.

If this sounds like something you are interested in, please visit us at AllPeopleDentistry.com

or in person:

7980 Arco Corporate Drive, Suite 102
Raleigh, NC 27617

I personally invite you to come and let me check your teeth, help you with any treatment needs, and keep you maintained at the top level of dental health.

Warmly,
Dr. C
